

MOTION MANAGEMENT SOLUTIONS

ROBOTIC CORRECTIONS

CIVCO's Protura™ Robotic Patient Positioning System is the ultimate in robotic management of patient motion. Designed to integrate with existing IGRT solutions and Linacs, Protura positions the patient with 6 degree of freedom corrections.

Efficient | Accurate | Easy-to-Use

TOTAL BODY IMMOBILIZATION

CIVCO's Body Pro-Lok™ enables comfortable, total body immobilization for SBRT. Our Universal Couchtop™ is a strong, lightweight couchtop with low attenuation, ideal for IGRT tracking. The UCT features DoseMatch™ Technology to assure consistency between planning and treatment.

ACCURATE POSITIONING

CIVCO provides a wide variety of essential positioning devices to treat your patients with comfort and accuracy. We are committed to bettering patient care through continual innovation in positioning devices. Recently, we have introduced new thermoplastics, the newly redesigned Kneefix™ 2 and Feetfix™ 2 indexable cushions, an improved Fixator™ Shoulder Suppression System and expanded our MRSeries™ line of MRI compatible products.

QUALITY ASSURANCE SOLUTIONS

EPID BASED IMRT, IGRT & IMAT QA

World's first commercially available Exit Dose product! Dosimetry Check software works with any EPID and any treatment technique, including RapidArc™ and VMAT, to provide 3D volume calculations for IMRT QA and 3D Pre-treatment and Exit Dose calculations.

3D Exit Dose | 3D Volume Calculations

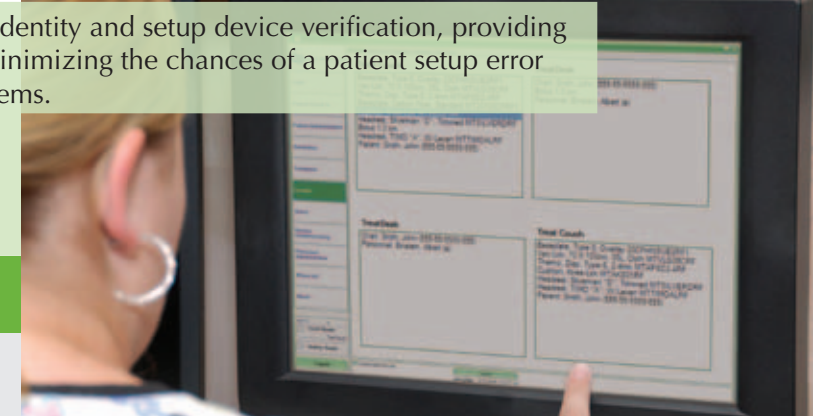

TRACKING & VERIFICATION

CIVCO's RFSuite™ efficiently and effectively assists in patient identity and setup device verification, providing automated accessory verification of daily treatment devices minimizing the chances of a patient setup error providing quality assurance never before attained in R&V systems.

- Confirms patient positioning devices and verifies beam modifying accessories*
- Provides patient, personnel and device tracking throughout the department

TUMOR LOCALIZATION

CIVCO brings the newest solutions in tumor localization with new fiducial markers. FlexiMarc™ Markers have a distinct, non-biological projection with easily identifiable nodes. FlexiCoil™ Markers are a unique coil marker with solid nodes that clearly define the end points.
